Very good overall, time management in the sections was hard. Tried to do too much in 1 hour sometimes and sometimes most important material was left to the end when it had to be rushed.

Konstantin was a very effective lecturer during section- he clearly understood the material very well and was good at getting across what was most important.

Konstantin was very helpful when I was struggling with concepts. My problem was that the section teaching was similar to lecture. It was very much just reading off of slides. I think a useful section would be to have students follow along with a process in R, where all the data is available online and we actually participate in the learning. I know that would have helped me a ton!

Very good pedagogy and excited about the material.

Very approachable, always available and willing to help. Great at explaining things, although the pace of section was sometimes too fast, mostly because too much material was to be covered in a short amount of time. Made difficult concept easy to understand and very enthusiastic.

Konstantin clearly knows the material very well. Sometimes he gets rushed and skips over steps that are kind of important for those who don't quite grasp the material as quickly.

Konstantin is stellar and I am really happy he taught GOV 2000/2001. Couldn't have asked for a better TF!

While the nature of the assignments in this course (webassign) made for poor feedback, Konstantin was an amazing TA, always available and willing to help.
